## NZCCC OKATO MID-YEAR AUCTION, Sunday 23 September, 2018

At David Luckin's home, 218 Warea Road, Okato, Taranaki

The following items will be offered for sale on behalf of the vendors at the meeting to be held at David Luckin's home, 218 Warea Road, Okato, Taranaki.

**The auction will start early afternoon.**

1. The NZCCC accepts no responsibility for any incorrect description of any lot. Viewing opportunity will precede the auction. Any vendor reserve is indicated by the \$ amount at the end of each lot description.
2. Bids, starting at \$5, will be accepted only from currently financial members or their approved guests and the Auctioneer's decision will be final.
3. An NZCCC vendor commission rate of 10% (minimum \$1) will apply to each lot offered for sale. No commission applies to buyers.
4. All lots sold will be delivered to the purchaser or postal bid coordinator as appropriate at the time of sale.
5. A full accounting of sales will be recorded and a list of auction results will be published with the AGM report.
6. Overseas bidders must make private arrangements for the delivery of ammunition.

**Postal Bids: Please ensure that postal (absentee) bids are in the Editor's hands by Wednesday September 19.**

Post to Kevan Walsh, 4 Milton Road, Northcote Point, Auckland 0627 or email [kevan.walsh@esr.cri.nz](mailto:kevan.walsh@esr.cri.nz). A scan of the postal bid form is preferred, but simply emailing the editor with your bids will also be fine.

**For postal bids a payment of \$5 is required.** Either make a bank deposit (BNZ account 02-0214-0052076-00) and let the Treasurer Kevan Walsh know, or post your bids with a cheque or cash to Kevan. All postal bids (form attached) are binding, but items will not be sent until the appropriate Police authorization has been completed. Upon completion of the auction, successful postal bidders will be contacted to initiate the "Mail Order Sales of Standard Sporting Firearm(s), Airgun(s) and/or Ammunition (Section – 43A Arms Act) process, using Form S. 43A.

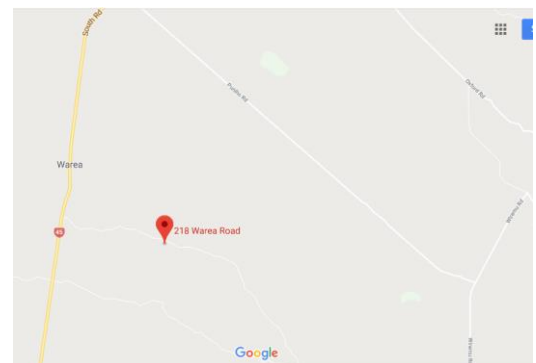

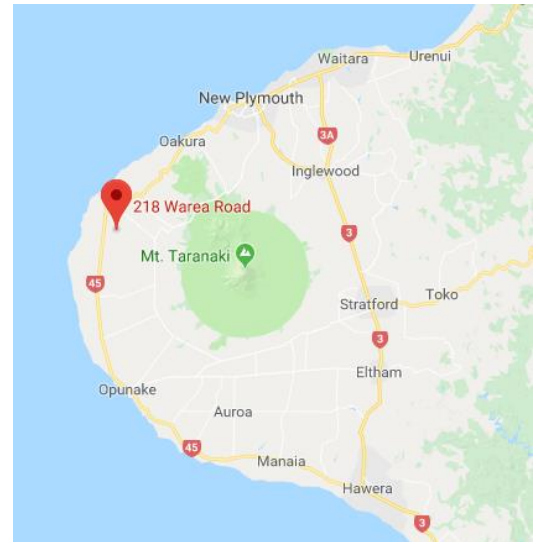

<http://www.police.govt.nz/sites/default/files/publications/arms-act-mail-order-sales-application-form-nzp-s43a.pdf>

Bids will be accepted from **financial members only**; and must be in whole dollar increments. No compound or rolling bid instructions will be accepted. Every effort will be made to secure lots at a rate exceeding lesser bids by the smallest margin, and all postal bids will remain confidential to the postal bid coordinator. In the event that a postal bid equals a floor bid, the postal bid will have preference. All postal bidders will be notified after the auction. Completion of the appropriate documentation and payment inclusive of any delivery costs must be received before any item will be released to the buyer. NZCCC cannot provide international delivery and overseas buyers will be responsible for their own delivery arrangements. Any lot found to deviate from the list description will have the postal bids waived on that lot.

**Buyers:** Please register your attendance and obtain a buyer number. Buyers of ammunition must hold a current firearms license and its presentation will be required.

**Vendors:** Please clearly number all lots as per the auction list and deliver to the organizers prior to midday of the auction date. Any lots not bagged or incorrectly numbered risk non-inclusion in the auction.

**Note: All lots are described by the vendors as in good condition unless otherwise noted. R\$ = reserve price**

272	Tin 9mm Canne gun. A sealed /unopened 50 rnd tin of 9 mm Canne (cane) gun (brass?) cased cartridges

	by Gevelot; synonymous with 'walking stick' cartridges. Metal 2 piece tin has obviously been sealed for a long time with red tape, having black print, so contents NOT examined, but ctges seen in the past in mint cond', details indicated in French & English that the ctges are loaded with '8 shot'. The red paint / lacquer (& the silver description details) over the tin has worn away to a degree & hence words are hard to interpret, the impression of the ctge is quite clear. It is likely that few of these tins exist unopened, g/c, inside may be mint! (see photo) <b>Res \$45</b>
273	5 mm Remington r/f magnum, full 50 rnd white pkt with red & green print, Contents: 30 gr g/m blts with small lead h/p. Brass case with h/s: impressed <b>A</b> , pkt indicates "Made in Mexico" (see photo) <b>Res \$30</b>
