

New Zealand Cartridge Collectors Club

NZCCC DARFIELD AGM AUCTION, Saturday 9 March, 2019 Darfield Recreation Centre, North Terrace, Darfield.

The following items will be offered for sale on behalf of the vendors **following the AGM** at the Darfield Meeting. **The AGM starts after lunch.**

1. The NZCCC accepts no responsibility for any incorrect description of any lot. Viewing opportunity will precede the auction. Any vendor reserve is indicated by the \$ amount at the end of each lot description.
2. Bids, starting at \$5, will be accepted only from currently financial members or their approved guests and the Auctioneer's decision will be final.
3. An NZCCC vendor commission rate of 10% (minimum \$1) will apply to each lot offered for sale. No commission applies to buyers.
4. All lots sold will be delivered to the purchaser or postal bid coordinator as appropriate at the time of sale.
5. A full accounting of sales will be recorded and a list of auction results will be published with the AGM report.
6. Overseas bidders must make private arrangements for the delivery of ammunition.

Postal Bids: Please ensure that postal (absentee) bids are in the Editor's hands by Monday March 4.

Post to Kevan Walsh 4 Milton Road, Northcote Point, or email kevan.walsh@esr.cri.nz. A scan of the postal bid form would be good, but simply emailing the editor with your bids will also be fine.

For postal bids a payment of \$5 is required. Either make a bank deposit (BNZ account 02-0214-0052076-00) and let the Treasurer Kevan Walsh know, or post your bids with a cheque or cash to Kevan. All postal bids (form attached) are binding, but items will not be sent until the appropriate Police authorization has been completed. Upon completion of the auction, successful postal bidders will be contacted to initiate the "Mail Order Sales of Standard Sporting Firearm(s), Airgun(s) and/or Ammunition (Section – 43A Arms Act) process, using Form S. 43A.

<http://www.police.govt.nz/sites/default/files/publications/arms-act-mail-order-sales-application-form-nzp-s43a.pdf>

Bids will be accepted from **financial members only**; and must be in whole dollar increments. No compound or rolling bid instructions will be accepted. Every effort will be made to secure lots at a rate exceeding lesser bids by the smallest margin, and all postal bids will remain confidential to the postal bid coordinator. In the event that a postal bid equals a floor bid, the postal bid will have preference. All postal bidders will be notified after the auction. Completion of the appropriate documentation and payment inclusive of any delivery costs must be received before any item will be released to the buyer. NZCCC cannot provide international delivery and overseas buyers will be responsible for their own delivery arrangements. Any lot found to deviate from the list description will have the postal bids waived on that lot.

Buyers: Please register your attendance and obtain a buyer number. **Registration for the auction (to get a bidding number) will take place on Saturday morning between 9.30 and 10am.** Members who arrive later will need to see Kevan Walsh to get a bidding number. Buyers of ammunition must hold a current firearms license and its presentation will be required.

Vendors: Please clearly number all lots as per the auction list and deliver to the organizers prior to midday of the auction date. Any lots not bagged or incorrectly numbered risk non-inclusion in the auction.

Please note than lunch at about midday on Saturday is free for all registered attendees and their partners. At about 12.45 we will take a group photograph of all attendees. At about 6pm we will halt the auction (if needed) for an evening meal, catered for by the venue and paid for individually upon registration.

Note: All lots are described by the vendors as in good condition unless otherwise noted. R\$ = reserve price

	Prometheus Hunting Pellets. Poor to exc condition.
191	Thirteen mostly empty air pellet tins. .177 Eley Match; .177 Gamo Match; .177 Gamo Match Diabolo; .177 Gamo Mod Match; .22 Gamo Hunter; 25 cal H&N Hollow Point; .22 H&N Field Target Trophy; .177 H&N Match Kugel; .177 H&N Finale Match; .22 Indep; .22 Accu Pell; .177 RWS Meisterkugein; .177 RWS Hobby
192	Three full or part full Canadian .22 pkts: .22 Long Dominion Super-Clean; .22 LR Dominion Super-Clean; and .22LR CIL Whiz Bang Mushroom.
193	Pkt (100) 297/230 Morris Short. Product of the Morris's Aiming & Sighting Apparatus Co, 7 & 9 Saint Bride St, Ludgate Circus EC. Cave Cornua (Bulls Eye) Brand. Bulls head in centre of target. Pkt has been opened
194	Two .375 2 1/2" Flanged ctges. One is CN RN SP, hs C KYNOCH C 375 or 370 . Other is CN RN SP, hs ELEY .375
195	.303 Magnum. CN FMJ, hs MAGNUM 303 .
196	Two .400 3" Purdey ctges. One is LRN HP, hs PURDEY . LONDON . An early black powder load with proprietary hs. Second is LRN HP, hs KYNOCH 400.P . A nitro for black load.
197	.275 Holland & Holland Magnum Flanged. CN RN SP, hs * HOLLANDS .275 MAGNUM * ELEY
198	.375 Holland & Holland Belted Magnum. CN RN SP, hs * HOLLAND .375 MAGNUM * ELEY
199	Fourteen .310 Cadet ctges. Different in projectile or hs. H/s includes MG, MF, Sako, BB, ELEY and Kynoch variations
200	.458 Lott. GM RN SP, hs HORNADY 458 LOTT
201	14 volumes in 1 box of the Gene Scranton " colour codes of military ammunition ". A superb collection from part 1 to part 14 containing many hundreds of pages of invaluable details on coloured tips & other details besides colour coding for long arms & handguns. An essential guide to the collector of military ammunition, overall in very g/c
202	1 blackened sealed tin understood to contain 600 rounds of Australian made (ICI) .22 LR, believed in yellow & blue packets. Refer the last NZCCC Bulletin - 436, page 6 for comprehensive photos & details. May not have been seen before in NZ by most collectors. Tin is in close to new condition.
203	1 white, sterile end opening, with oblong stamp " MINISTRY OF DEFENCE - .22 SUPERSONIC AMMUNITION ", 500 round 'brick' (9/10 pkts); each of the 9 mint pkts (believed all full) stamped S 5 ; .22 lead solid ctges with CAC h/s appear to be in mint cond'. Some damp staining to exterior only at 1 end of lge pkt, but strong & in vgc/gc. Orange sticker on box indicates details of contents.
204	1 unopened 20 rnd oblong box " Not For Use In Aircraft Winchester .303 Ball Cartridge 174 Gr Full Patch Made in U.S.A ". Details on white label, also a stamp on label (smudged) "24 A ?? 197? Lot 077?". Some grubby mks to box but overall gc, contents not checked, prob vgc.
205	1 full & unopened military 20 rnd oblong stapled box with black tape over & around. Green print on white label indicates "20 cartridges .303 Inch Ball Mk 7 IN CHARGERS, stamped code: RG13 5 55B. Contents not checked Little grubby, no damage, strong & firm, gc.
206	Similar to Lot 205. Green print on white label indicates "N 20 cartridges .303 Inch Mk V11 IN CHARGERS, date code: R ^ L 20 9 30(?)". Contents not checked, little grubby, label a bit scuffed, strong & firm, overall gc.
207	Similar to Lot 206. Red print on white (some bottom tears but readable) label indicates "20 CARTRIDGES S.A. BALL (In Chargers), Mark V1", faint date code: AO(?) ? 1913 Contents not checked, minor mks, little grubby, strong & firm, overall gc.
208	1 full & unopened Kynoch red & yellow 10 rnd, 2 piece box of .303, mint cond'. Blt: "Soft Nose Pointed (non-fouling) 174 grns". Date code: 24 J N - (24 March 1965).
209	1 full, mint cond' & unopened 2 piece box of "10 Solid Metal Cartridges For .303 British Mk . V1 Sporting Rifles - Loaded by Imperial Cartridge Co Melbourne etc". Produced for London Guns in the 1980s using pulled blts from Mk 6 ctges.
210	1 full, unopened & as new cond' flat square box with black print on red wrap around label of " 100 12 Gauge non-corrosive CAPS & ANVILS - assembled and packed by The Colonial Ammunition Company Ltd, Auckland for distribution by Ammunition House Ltd Wellington".
211	1 near unique red plastic shotshell of 17. 2 cm LONG! (6 3/4 inches +). Rolled over case mth to buff topwad, appears to be loaded with shot, print on case in black: "Winchester Salutes AFTE (<i>The Association of Firearm and Tool Mark Examiners</i>) 25 Years Service 1969 - 1994", about 18 mm steel, brass washed cup, hole in cu cupped b/p & h/s: WINCHESTER 12 GA
212	25 yellow plastic 3 inch long underwater propellant chargers with rimmed bases & metal encased brass primers that have a h/s of 'H' in a circle. Attached detail indicates that these are for use with .22 caliber wadded blanks. Explanatory sheet with these items indicates " <i>Yellow: For medium fish at moderate range</i> ". Most unusual & great with the explanatory makers details; as new cond'.
213	2 x 8 bore x 77 mm paper cased, roll over t/w shotshells. 1st: black print on red case t/w: 3 3 3: "ELEY 8 GAUGE Cartridge" etc with h/s: ELEY - KYNOCH 8 2nd: Black print on brown buff paper case, (t/w: damaged by silverfish): "ELEY GASTIGHT QUALITY water resisting CASE", H/s: 8 ELEY 8 NOBEL A very nice pair both in vgc.
214	2 of 12 g paper case engine 'starter cartridges'. Both aluminium capped (" <i>Remove this cap before use</i> "), 1st: Brown/cream paper (star crimped) Marshall Diesel Engine Power Start cartridge - h/s: 12 ELEY KYNOCH 12 ICIANZ. 2nd: Green paper case below darkened aluminium cap, same details as 1st ctge, h/s: ELEY - KYNOCH 12 ICI 12 . Both gc.
215	1 of 2 piece brass cased , 6 petal crimped 10 g shotshell. Does not look to be a reload (but a NPE post-factory load?) white paper topwad shows " X1 ", could be V over 1 on an angle, drawn by pencil? Domed & cupped small c/p & h/s: No KYNOCH'S 10 PATENT vgc.
216	4 new unprimed brass .577 Snider m/t cases. 3 (unfired) & are machined brass, as new, 1 with h/s: EPPS 577 S . 2nd with full around h/s: S P A N Z .3rd: h/s: N . D . F . S . .577 S . Last may have been fired, h/s: S P A N Z (in straight line) over 577 - S (in straight line & with 3 groove mks over the - & last 7. These are seen less & less each year.

217	2 v early & vgc 2 piece case / brass cu cupped primed .577 Snider by CAC with lead solid r/n blts. 1st has brass base disk, minor case depression, - Mk 'D' . 2nd the Mk E with iron base disk - has minor dings to case. Both bullets case mth crimped. V clean.
218	2 v early & vgc ' 2 piece case, cu(?) cupped cu primed .577 Snider by CAC with lead solid r/n blts. 1st has brass base disk, - Mk 'D' . 2nd the Mk A 111 with iron base disk - has 4 deep pin dot crimp mks below case mth. Both bullets are case mth crimped. V clean cases.
219	4 blank 12 g paper shotshells, roll over case mth crimps, each with B on orange t/wads, each has some corrosion on brass (will clean) & cases need little cleaning. 1 blue low brass - h/s: 12 C.A.C 12 N. Z. 2nd: High brass with dark blue or black case, same h/s, both lge flat c/p. 3rd: Red case v low brass, might be brass flat/p(?), same h/s. 4th: red case, low (not v low) brass with flat b/p & same h/s.
220	1 x 12 g s/s - NZCCC 25 year Commemorative star crimped, gold plastic case with low brass & h/s: 12 12 (at 3 & 9 o'clock), in new cond'. Black print on case "New Zealand C.C.C. * 25 * Years 1961 - 1986 ACE - 32 - 7 . A lot of time has passed since these were made & few if any turn up now.
221	1 small round 2 piece tin - 100 - 6 m/m Flobert Platz - Patronen, Acorn in centre circle, NURNBERG shown in print, all details in German. Black print & red & gold background. Tin seal once taken off, but lid will not come off without undue force, so not opened, feels & sounds full or near full. Some old rusting mks but still fc+ - gc.
222	1 small rnd 2 piece tin, round green label fully intact, black & red print. "100 No 1 BLANK Saloon Cartridges CRIMPED (in red), then details about ICI Eley/Kynoch etc. Contains about 20 copper petal crimped blanks. By ICI Eley/Kynoch etc. Some rust mks but F/c +
223	1 small round 2 piece tin, green print : 100 No. 1 SALOON BLANK Cartridges. Appears once opened but full or near full. Copper blanks (some need cleaning) with "E" h/s. Have white paper top wads with case mth rolled over. F/c+
224	1 Catalogue, repro' of "Jeffery's Guns, Rifles & general shooting accessories - Season 1910 - 11". This light brown v/g cond' 92 internal page large catalogue is believed produced by Armory Publications (George Hoyem) in the v early 1980s. The text on many pages contains a wealth of information on many forms of firearms & ammunition. It is a collectors gem.
225	1 book, "The Webley Story" by C H F Kirkland. This 337 page (in v/g/c ++) hardback book is sought after world wide & is a true collectors piece. Containing well over 100 illustrations, details of the Webley Company & very many photos of Webley handguns; further some very significant details of cartridges of the day, plus pics of ammo & packets. Deserving a premier location in the very best of gun rooms.
226	1 x .240 Holland flanged/ rimmed N. Ex. Non mag g/m blt with small lead nose. 1 minor mk to case, h/s: HOLLAND .240 gc+
227	2 x .333/.280 Jeffery, both flat b/p & vgc. 1st: G/m mag blt with ptd cu tip, 3 stab crimps, h/s: KYNOCH J . 280 NITRO 2nd: C/n mag blt with ptd cu tip, blt friction seated, h/s lge print: KYNOCH J . 280 NITRO An always sought after caliber
228	1 x .280 Ross in vgc. C/n non mag Match (Kynoch Swift?) long ptd blt, tiny mk to neck, no dents nicks or stains, weight: 495.5 grs, v early h/s: . ROSS . ELEY (dots not stars) See NZCCC Bulletin 436 for further details.
229	1 x .280 Ross in vgc. C/n mag blt with ptd cu tip, no dents nicks or stains, flat c/p, weight: 464.6 grs, v early h/s: * ROSS * ELEY (stars not dots) See NZCCC Bulletin 436 for further details.
230	1 x .280 Halger, the VERY big brother to the .280 Ross, but derived from its case. Must never be fired in a Ross rifle. C/n mag blt with ptd cu tip, lovely patina to case, has usual fine neck crack as all do, purple lacquer sealant around flat b/p, h/s: * .280 H.V. MAGNUM * „HALGER" Weight: 463.5 grs, blt weight: 143.4 grs vgc.
231	2 of the .300 Sherwood, both g/c & h/s: KYNOCH . 300 1st: Lead solid r/n (known to have metal base), friction seated blt, minor mks to case & flat c/p. 2nd: (not recorded in Fleming) Non mag friction seated g/m solid r/n blt, flat b/p, old staining below case mth, no corrosion.
232	10 of .300 Rook, aka .295 Rook. All non p/p lead blts. 4 have h/p: H/s: KYNOCH .300 . KYNOCH .300 . R. R & v deep seated blt (flat b/p): . ELEY . 295 (flat points on blt with hole drilled through) Six have lead solid some deep seated blts, 1 brass semi-domed b/p: KYNOCH 300 . 5 others with c/p & 2 no h/s (different). Also . ELEY'S . 295 &: . ELEY . 295 & U. M. C .300 ROOK .
233	.303 Magnum (British match rifle) semi rimmed with g/m mag ptd blt, appears friction seated blt, flat c/p & h/s: MAGNUM .303 . These were produced for match purpose only & only the 1919 1st year model has the rimless case. Vgc.
234	.333 Jeffery rimless, top half of case is chemically blackened, has c/n non mag blt & 3 'pin dot' crimp mks (plus the always present fine neck crack), still showing wax at case mth, with tiny lead (hard to see) ptd tip, domed b/p & h/s: KN JEFFERY KN .333 These ctges, made by Kings Norton for Jeffery exist both with & without the top 1/2 blackened case & also as both a rimless & a rimmed version. Despite the best efforts of NZCCC members Pete deCoux & T. Castle both searching worldwide, the significance of this 1/2 blackened case remains unknown, it is generally assumed to indicate a "Match Ctge" which may or may not be the case; it is known that it is loaded with AXITE. Scarce, vgc.
235	.350 Rigby (Mauser) magnum. C/n non mag blt with smaller ptd cu tip (a larger cu tip is known), has 3 pin dot crimps. The rimless case, which in fact is semi-rimmed (no dings, corrosion or cracks - has old label) will clean up well with some mineral turps. Has flat c/p & h/s: RIGBY .350 MAGNUM NITRO At the time of introduction this ctge/rifle was "ahead of its time" & a force to be reckoned with. gc.
236	1 x .310 odd case length. This could be a .300 Rook Rifle 'Target' load ctge, but blt dia: 0.313"; .300 RR blt is 0.297" dia, has lead solid blt & 1 cannellure. V similar to a .310 Cadet but wrong c/l. The weight of 194.8 grs says 'to heavy' to be a .300 RR target blt, blt is slightly 'wobbly' in case mth, no sign of reloading or tampering). C/l is too short at 1.022" to be a RR, has no h/s & flat c/p. .300 RR have c/l longer at 1.172". Blt dia' is same as .310 ctge - 0.313". Appears to be a factory loaded .310 "intermediary c/l" being between the cattle killer & the standard .310 ctge. g/c - an enigma.
237	4 variations of the .318 W. R. 1st: G/m W/R capped, 'round nose' solid 250 gr mag' blt, h/s: KYNOCH .318 NITRO 2nd: G/m mag solid r/n 250 gr blt, h/s: KYNOCH .318 NITRO 3rd: W/R - c/n 2 piece L/T capped non mag , blunt ptd 250 gr blt, stain on blt, but not often seen 4th: G/m with 250 gr mag lead r/n blt, h/s: KYNOCH .318

	NITRO . All no cracks, minor stains, vgc - gc.
238	4 variations of the .318 W/R ctge. 1st: blt 180 gr - 2 piece g/m blunt ptd LT capped solid blt with rear section mag, h/s: KYNOCH .318 NITRO 2nd: 250 gr blt, g/m W/R capped blt, h/s: KYNOCH .318 NITRO 3RD: 250 gr W/R capped non mag bi-metallic blt, base c/n & W/R cap is rnd nose g/m, h/s: W.R .318 4th: 250 gr g/m blt with lead r/n & h/s: .318 NITRO
239	4 variations of the .318 W/R ctge. 1st: 250 gr blt, mag g/m with lead round nose, dent in shoulder, h/s: W . R. .318 (the h/s with the dot after the R is hard to find). 2nd: 250 gr g/m mag blt with lead r/n & h/s: KYNOCH .318 NITRO 3rd: W/R capped mag blt, bottom c/n & g/m top r/n, h/s: KYNOCH AXITE .318 - has domed b/p & has neck crack. 4th: 180 gr W/R LT capped blt, bottom section c/n & semi ptd top section g/m, h/s: KYNOCH AXITE .318 - Domed c/p. Few minor stains but overall vgc - gc.
240	5 variations of the WR .318 ctge. 1 st: C/n 250 gr non mag blt with lge lead r/n, h/s in lge print: KYNOCH .318 2nd: 180 gr g/m r/n mag solid; h/s: KYNOCH .318 NITRO 3rd: 250 gr blt, g/m with lge lead r/n, h/s: KYNOCH .318 NITRO 4th: W/R capped non mag blt, c/n bottom 1/2 & blunt r/n cu top 1/2 of blt, h/s lge print: KYNOCH .318 5th: Non mag L/T capped (blunt ptd) 180 grn blt, c/n bottom 1/2 & blunt ptd cu top 1/2, neck crack, h/s: W . R .318 All gc.
241	2 variations of .375 Holland magnum rimmed, both have mag c/n blts with ptd cu tips & flat b/p, weigh 568 & 564 grs. 1st has h/s: HOLLAND .375 MAGNUM K & 2nd has h/s: KYNOCH .375 MAGNUM Both vgc.
242	2 variations of .375 Holland magnum rimmed, 1st has non mag c/n blt with huge hollow nose, h/s: HOLLAND .375 MAGNUM K 2nd has g/m mag blt with ptd cu tip, h/s: KYNOCH .375 MAGNUM Both vgc.
243	1 of .303. Something quite unusual. G/m non mag blt with lead tip, seems friction seated, brass case, flat b/p. h/s: " _____ "what looks like a broad letter U with an upside down question mark in it, or 2 with a dot below it _____ .303 BRIT " . Details on bag that it has come within states "Made in Bosnia - Herzegovina" Not seen before, vgc.
244	.450 / .400 x 2 3/8" (Nitro for bp or Nitro) in vgc. C/n blt with v lge flat & wide lead nose & within is a lge hollow nose. 3 stab crimp mks at bottom of neck (unusual), h/s: . ELEY . .450/400 NITRO
245	.450 / .400 x 2 7/8" . Quite a scarce ctge in vgc, believed never went further than BP. P/p lead blt with cu tube (all mint). Some minor stain mk where case has been in contact with such as corrugated paper, otherwise like new. Flat c/p & h/s: KYNOCH 450 / 400
246	2 of .450/.400 x 3 1/4" BP loads. Both p/p (paper a little rough on each but all present) lead with cu tube blt, both have cu primers, both gc. 1 has h/s: ELEY LONDON . 450 / 400 with rounded edge to rim. 2nd has h/s lge print : . ELEY . 450 / 400
247	1 of .450 / .400 x 3 1/4". C/n non mag blt, low down 3 stab crimps, lge blunt nose, c/p & h/s: . ELEY . 450 / 400 NITRO vgc.
248	4 of .450 / .400 2 3/8" BP Ex'. Each g/c, with c/p & have p/p lead blt, 3 with cu tube. 1st: h/s: . ELEY . LONDON . .450 / 400 & <u>lead solid blt</u> . 2nd: v flat base & small h/s: ELEY . 450 - 400 3rd: Minor mks to case, almost flat top of blt with the cu tube & h/s: . ELEY . LONDON . 450 / 400 4th: minor mks to case, has lge domed cu/primer & NO h/s.
249	2 of .450 / .400 2 3/8" Ex'. Each g/c. 1 has p/p (part torn) lead blt (BP?) with cu tube & is a bullet board dummy, 4 holes in case (with some stains) & 1 hole through blt, small domed c/p, v lge h/s: . ELEY . 450 / 400 2nd: 1 wax filled cannellure above case mth, flat base & h/s: KYNOCH . 450 - 400
250	2 variations of .450 / .400 2 3/8" Nitro for BP, both vgc/gc. 1st: Lead flat nose blt with 2 cannellures, 2 pin dot crimp mks, small semi domed c/p & h/s: . HOLLAND . .450 - 400 2nd: Lead blt with round nose & cu tube, 2 pin dot crimp mks & 2 cannellures - 1 is at case mth, flat c/p & lge print h/s: . HOLLAND . .450 - 400
251	.500 / .450 3 1/4 Magnum BP Ex' in vgc. P/p lead blt with cu tube, 2 v tiny nicks to case, small flat c/p & h/s: . ELEY . 500 / 450
252	1 loaded & 1 m/t case of the .500/.450 No 2 Musket, both gc. The loaded 1 has a solid lead blt with a flat nose, no paper patch seems to have ever been evident (other examples are known, buyer to decide). Some nicks to blt, case good with no corrosion, lge c/p & full around h/s: . WESTLEY RICHARDS . No 2 MUSKET - a very desirable h/s. 2nd: Appears to be a N/P/Empty case with h/s: . ELEY . No 2 MUSKET.
253	2 of .500/.450 No 2 Musket, both p/p (little damage to each) lead solid r/n blts, both cases need cleaning, no corrosion or dings. 1st: small c/p & h/s: . ELEY . No 2 MUSKET 2nd: lge domed b/p & h/s: . KYNOCH'S No 2 MUSKET
254	3 of .475 x 3 1/4" Nitro Express in vgc/gc, each non mag blts & each have h/s: Kynoch 475 Nitro & flat c/p. 1st: C/n blt with 4 slits & lead r/n. 2nd: C/n blt with lead r/n 3rd: G/m blt with lead r/n. This caliber never really 'got off the ground'. Eley examples exist, but the number of variations by both makers is limited.
255	2 of .500 x 3" BP Express, both g/c, with p/p lead blts with cu tube & small c/p. 1st is a blt board dummy, P/p lead r/n blt with cu tube, 2 holes to brass case, hole through cu primer . ELEY . LONDON . .500 2nd: minor ding to case, h/s in v lge print: . ELEY . .500
256	11 examples of the European 5.6 Velo Dog revolver ctge, 3 with petal crimp, blank & some weight differences may have 1 or more as 'dust' shot not blank. 8 variations with g/m solid r/n blts, 1 c/n solid r/n blt. All are variations & in g/c to v/g/c.
257	6.5 mm M 1894 Mannlicher 'self loading pistol'. (Brandt cat' 34). Long mag c/n solid blt with round nose. Thick rim. H/s: 96 * (could be * over 96), mint cond'.
258	7 variations of 7.62 Nagant revolver. 4 loaded with deep sunken blts that have the 'short shoulder'. 1 very deeply sunken blt, little shoulder & neck (h/s: 38 66) 2 cases, 1 unfired with no primer or h/s (B B Australia on side of case) & last: snapped ni primer, fired with h/s: 38 72
259	11 of 7.63 mm Mauser auto pistol. Now the fun begins. J Brandt indicates that these ctges (p131) are "identical in dimensions to the 7.65 Borchardt & the 7.65 mm Mannlicher & that they are interchangeable with the 7.62 Tokarev which has the same dimensions!! All have g/m r/n blts & are magnetic apart from 1 which has unusual h/s - Chinese type character then 121 52 12 2 have steel cases, 1 cu washed with green bullet tip & 1 grey lacquered case (04

	over 58 or vice versa) . Other 8 are all variations. So Mauser, Tokarev or ??
260	2 of 7.63 Mauser in g/c, with the Westley Richards "all range capped" blt, about circa 1900, which is c/n & then a mushroom shaped lead flat protrusion from top of bullet. Known in at least 3 h/s these were a short lived & unsuccessful product of Westley Richards for the Mauser C-96 Pistol. 1 has no h/s, other h/s: K B
261	2 of 9 mm Japan M93 revolver in gc. 1st: Prob' Jap original with lead solid rn blt, no h/s & domed b/p. 2nd, solid lead r/n blt, flat ni/p: MIDWAY 9 mm JAP. REV.
262	7 ctges in g/c. 6 variations of 8 mm Lebel revolver & 1 of 8 mm Gasser. Both v similar but Lebel ID by it's (mostly) 'A' base & blt dia'. Lebel ctges all g/m blt & slight flat nose; some v/g headstamps. Gasser modern h/s: G F L GASSER . 8 .
263	8 x 10 mm Auto pistol, vgc - gc. 3 h/n blt & nickel plated case by Winchester (blackened pin grabber type blt), Federal & E L D. 5 brass cases, 3 h/n & 2 flat solid blts, by Norma (2), Hornady (1), P.M.C (2)
264	4 of 8 mm Nambu auto pistol ctges in gc. 2 probably Jap. 1st: g/m blt with cannelure around & is well above case mth, 3 pin dot crimp mks, unusual knurl around case above head, domed cp & no h/s. 2nd: C/n solid blt, 3 pin dot crimp, domed b/p & no h/s. 3rd: G/m blunt nose blt, h/s: MIDWAY 8 M.M. NAMBU 4th is made from a .38 colt auto ni plated case & so headstamped, has lead blt.
265	4 of 11 mm French Ordnance M 1873. 1st Solid lead ptd blt & h/s: GG (back to back & intertwined) GUERRE MOD. 73 2nd: V blunt semi r/n lead blt, lge b/p with N in shield on it, h/s: H . UTENDOERFFER NURNBERG 3rd: Shot load with green/blue/white speckled sabot & white top wad, some corrosion & staining at case mth, h/s: Same as 1st item. 4th: 8 petal crimp blank, h/s same as 1st item.
266	3 of 11 mm French Ordnance 'paper mache' blt type blank or small shot ctges, weigh 2 x 86 gr & 1 x 91 gr. Need clean & some corrosion to 1, Made by ECP: Ecole Centrale de Pyrotechnie Bourges for French military. Fc.
267	2 of 10.6 mm German Ordnance revolver ctge. 1st: Solid lead blunt r/n blt with 2 (?) cannelures above case mth, 'A' base with h/s on edge of rim believed: 9 * 15 S 2nd: Nearly the same with h/s: 10 * 15 S Ref' Brandt p285.
268	10.6 mm Spanish Ordnance M 1884 (believed to be) revolver ctge, lead solid blunt blt, case mth crimped, (is writing on case), dimension: 10.67 mm x 24.55 mm Flat base, flat c/p & no h/s.
269	1 unknown. Writing on case says 10.6 German ordnance. Lge lead flat top blt (11.57 mm dia') with 1 cannelure above case mth, c/l: 24.4 mm, lge flat b/p & h/s: H . UTENDOERFFER NURNBERG Cannot find in Brandt, one for the metric experts.
270	11.3 mm Gasser / Montenegrin revolver (actual: 11.16 x 36.14) lead blt with blunt nose in gc. Thick rim, lge domed c/p, h/s: \ 19 / * \ 12 / D ("D" - most probably - 'Durlach' manufacture) Note: Determining details of Montenegrin ctges is a complex matter due to the variations in such as case lengths & blt diameters. This applies to this ctge & also to the ones below. Ref' Brandt Catalogue 166.
271	11.3 mm Gasser / Montenegrin revolver (actual: 11.04 x 35.91) lead blt, case mth crimped, with small flat nose in gc. Thick rim, domed b/p, no h/s. USA made?
272	11.3 mm Gasser / Montenegrin revolver in gc.(actual: 11.06 x 36.0) lead friction seated blt with lge flat nose, v lge domed c/p & h/s: \ 18 / 111 / 91 \ 111 This h/s almost certainly indicates the 3rd version - "light base" (they did 1 & 2 as well) of this cartridge made by RWS.
273	11.3 Gasser / Montenegrin revolver in gc (case writing as have those above) (actual: 11.32 x 34.20). Lead case mth crimped blt with smallest flat nose, rounded edge to quite thick rim, lge domed c/p & no h/s.
274	11.3 Gasser / Montenegrin revolver in gc (case writing) (actual: 10.77 x 36.17). Lead case mth crimped blt with flat nose, the widest part /diameter of the blt is below the case mth. Lge domed b/p & h/s: * XTRA * MONTENEGRIN A most unusual & interesting h/s.
275	2 of 12 mm French thick rim revolver converted to centrefire, both no h/s, g/c & have lead solid blunt nose blts & case mth crimped. 1st: brass 'cupped' or brass inserted surrounding v lge semi domed c/p. 2nd: brass cupped small flat c/p. Ref' Brandt cat' 175
276	2 of 12 mm French thick rim revolver, both g/c & have lead solid frosted blunt nose blts & case mth crimped. 1st: usual v thick rim, flat base & no h/s. 2nd: base has a deep concave centre, 'firing pin strike' or machine made depression? Stunning h/s: . PERRIN B t e S . G . D . . PARIS A most unusual h/s Base depression does not look like a firing pin strike.
277	12 mm French centrefire revolver. Blunt ptd lead blt with serrated 'cannelure' around & above case mth. Minor stain to case but v clean & certainly g/c. Rim: 12.56 mm. Domed b/p & h/s: GG back to back & intertwined, 12 M/M Ref' Brandt cat' 173.
278	3 of 9 mm Mauser Export auto' pistol ctges, all mag blts & g/c. 1st g/m ptd, flat b/p & h/s: 12 40 P 635 * 2nd: flat b/p & h/s: \ 19 / 1 / 37 \ bomb burst or ? 3rd: \ 19 / 1X \ 38 / German eagle Ref' Brandt cat' 131.
279	25 rnd full box of 12g shotshells. Front exterior of white pkt shows N Z C T in lge black print around a blue & white border; flip top of pkt has same logo & states " Manufactured especially for the New Zealand Clay Target Association (Inc) by CAC Industries, one side in black print states " THIS PACKET CONTAINS 25 CARTRIDGES " Contents: 25 rnds of petal crimped red plastic s/s with black print on cases: N Z C T 9 then CAC diamond logo on other side, cupped cu primers. h/s: -- 12 -- CAC -- 12-- CAC
280	25 rnd full box of Eley (ICI) COMET shotshells. Box has red & blue print with white background on top & back, white print on blue background on sides. Detail on 1 side indicates "These cartridges are manufactured and loaded by a registered user of the Trade Marks etc - sole distributors in N.Z. Ammunition House Ltd Wellington. Detail on boxes shows 12 gauge, 1 1/4 oz load, 4 shot, 2 3/4 shell. Contents are as new cond", cream coloured paper cases with petal crimp & black print, h/s: ELEY - KYNOCH 12 (ici in circle) 12
281	25 full box/pkt of 12g shotshells. Top exterior of white pkt shows N. Z. F. S. in lge black print. At some stage someone using a biro has made about 24 notations (such as 1 P) on 1 face of pkt & a scribble mk on bottom opening end of pkt; neither affect the packet to any great degree. Back of pkt, black print: " Warning these powerful cartridges should be used only in modern guns, in good condition - etc, etc" - (13 lines of black print). 1 interior sealing flap indicates " In the event of complaint the cartridge or fired shell together with the BATCH NUMBER etc to be sent to

	CAC Industries Ltd Auckland etc. S/s ctges are mint, purple paper case, petal/star crimped, black print on case: " RABBIT BOARD 4" h/s: 12 CAC 12 CAC
282	25 rnd s/s box only of brown card , fc+. Stencilled on the front in lge black letters is the word BLANKS nothing else on box . Contains 2 deep red 12g s/s blanks in g/c - vgc, 1.375" & 1.441" high, roll over crimp to orange topwad & B in a black circle , low brass cups & slightly concave (firing pin or?) brass cupped tiny copper primers , H/s: 12 C . A . C 12 N . Z . WW 1 training ctges or ? V early & unusual.
283	25 rnd s/s box (g/c for age) with wrap around label: "C A C LONG RANGE 12 GAUGE 2 3/4 Shell A Little Further A Little Faster 5 shot". 2 black paper cased high brass s/s shown on front. Back shows square label, with black print (lot of detail re' load contents) over red capital letters "CAC CHOICE OF CHAMPIONS" label headed "A product of New Zealand" . Bottom 2 lines : Made throughout in the Dominion of New Zealand by the COLONIAL AMMUNITION COMPANY LTD Contains 4 v high brass (with some corrosion - 2 v minor) black paper is in mint cond', case s/s, roll over topwad to black star & cream t/w with 5 on, h/s: 12 C . A . C 12 N . Z .
284	25 rnd s/s box, fc/gc. 16/25 ctges. ICI "ELEY KYNOCH " DUXBAC waterproof cartridges, 5 shot. Lovely pic on back label of ducks flying over water. Side label : " <i>These cartridges are manufactured and loaded in New Zealand by a registered user of the Trade Marks designated by *</i> etc. Sole Distributors in NZ Ammunition House etc. Star crimped contents in vgc with minor frosting around low brass cups; h/s: ELEY - KYNOCH 12 ici (in circle) 12
285	25 rnd box (23/25), white sterile apart from stamp " NEW ZEALAND CHAMPIONSHIPS HAMILTON 1971 7 SHOT (& s/s so marked) " & complaint details re' Ammunition House etc on inside 1 inner end flap, box in fc. Ctges (near mint) orange/brown, star crimp, v low brass washed steel (some tiny corrosion) cups, h/s: 12 CAC 12 CAC
286	500 rnd 'brick' (overall g/c) of South African .22 long rifle lead h/p r/f ctges (look as new) , contains 9 (believed full) end opening pkts in new cond', each of 50 rnds. Pkt white oblong with blue & red print, indicates made by "SWARTKLIP PRODUCTS Cape Town". Brass cases, h/s: lge "S" configured like 2 'C's intertwined, lead stepped h/p blt that is covered with a blackening compound. Not seen before.
287	.416 DAKOTA. G/m non mag blt, small flat lead tip, lge cannellure above case mth, seems friction seated, flat ni primer & h/s: 416 DAKOTA vgc.
288	.458 LOTT, g/m mag r/n blunt solid blt, case mth crimp, belted rimless ctge. Intended as a more powerful replacement for the .458 Winchester, using H & H .375 magnum case & blown out brass. Flat ni/p with "S"(?) in a blue marking, no h/s. vgc.
289	375 DAKOTA. G/m non mag blt with lead flat tip, flat ni/primer, h/s: 375 DAKOTA vgc.
290	330 DAKOTA. G/m non mag blt with flat lead tip. Friction seated blt, flat ni primer, h/s: DAKOTA 330 vgc.
291	300 DAKOTA. G/m non mag blt, small flat lead tip, flat ni primer, h/s: 300 DAKOTA vgc.
292	375 Weatherby Magnum - (blt .372" - belted rimless case). G/m non mag blt with blunt alloy r/nose, v minor ding to case, v sharp shoulder, h/s: W SUPER SPEED M 375 H & H MAG . V unusual with the W & M for the Weatherby in the h/s. g/c
293	2 of .375 Weatherby Magnum. 1st: G/m mag blunt solid r/n , no primer, 1 flash hole, h/s: WEATHERBY .375 MAGNUM 2nd: G/m non mag blt with blunt lead r/n, flat ni primer, h/s: Same
294	376 STEYR rifle. G/m non mag blt, ptd lead tip, nearly flat b/p & h/s: HORNADY 376 STEYR vgc.
295	.338 Lapua Magnum vgc, plus 1 unfired unusual boat tail blt with stepped in flat base. This: blt g/m ptd non mag, case mth crimp, flat ni primer, h/s: L in oblong type box, 338 LAPUA MAG
296	.17 cal (4.35 mm) USA experimental, non mag ptd g/m blt. Writing on case says '.17 British Bull Pup' but it is understood that the Bull Pup is 5.56 cal. This seems to be made using a 5.56 mm case(?) has h/s: R A 6 5 (so early), has flat b/p. vgc.
297	7.62 x 51 / .308 understood to be by AMRON, a USA division of AMTEC (National Defence) Corporation. Blt is g/m with lead ptd tip (so sporting). Has flat ni primer, base around primer seems machined away to leave no h/s & a bright sunken around groove. Hard to locate details, unusual, gc.
298	8 x 59 Italian Breda machine gun ctge in g/c. G/m mag ptd blt, lge extraction groove, h/s in sunken circle around primer: S M I 937
299	5.6 x 44 mm XM216 USA - Springfield / Frankford experimental, part of the 'SPIW' Programme (Special Purpose Infantry Weapon) second generation (believed.) Green plastic sabot holding 1 steel flechette, red lacquer around flat b/p, no h/s. vgc.
300	4.6 x 36 HK/CETME spoon tip experimental, non mag blt, flat b/p. H/s: 4.6 68 S B - 1 vgc.
301	3 x 7.62 x 45 vz M52 Czech. All g/c & have g/m mag ptd blts. 1 brass case: h/s (not English) similar to: r v v ^ .213 2nd: Lacquered grey steel case, h/s: bxn 54 3rd: Brass washed steel case, h/s: 270 N (inverted).
302	6.5 x 53.5 Daudeteau No 12 . A rare ctge in any country. Long slender c/n mag r/n blt, neck crack, 2 opposing pin dot crimp, v minor stain to blt & brass case, domed b/p & h/s: 18 DAUDETEAU 93 No 12 Developed by a Frenchman & offered to several countries with only Uruguay accepting, where the rifle was known as the 'DOVITIS' rifle. 2 variations known with the No 12 h/s, 4 other variations known. Very rarely seen, this is a decidedly RARE ctge.
303	4.7 x 45 mm (actual is 4.92 x 44.58) German - H/K experimental ctge to use in the H K G11 rifle. G/m mag ptd blt, tiny mk to brass case, flat ni/p, h/s: DAG 4.7 MM Little can be found regarding this caliber & at one stage it seems as though the company Mauser had some involvement in its development. It was a short lived trial ctge & considered scarce to rare. vgc.
304	4 ctges all gc, 3 x .44 Auto' Mag' ctges, c/n lead flat top mag blt, h/s: norma .44 AUTO MAG 2nd: - CDM - 44 AUTO MAG 3rd: G/m stepped flat nose blt (lead - cu coated?), case made from US rifle ctge (is recorded) , flat ni/p, narrow extractor groove, damaged bunter h/s: D(?) M 42 4th: Ni plated case & .450 dia' blt, blt solid r/n, hole in primer (so dummy?), h/s: HI - YO REA AWAY Similar to .450 Mag Express with .450 dia blt, but has slightly shorter case, similar c/l to .45 Colt but has extractor groove, or .45 Win Mag but case slightly too long & wrong blt dia, skilled buyer will determine.
305	3 x .442 Long c/f rev'. Each has solid lead blt & 1 cannellure. 1st: age related mks to case, cu primer, no h/s. 2nd:

	c/p & h/s in small print: . ELEY . LONDON . .442 3rd: Blt Board dummy, hole in c/p & 1 in case, h/s: . ELEY . LONDON All gc.
306	6 of .38 (S & W) x 200 rev'. 1 nickel case & cu washed lead blt h/s: 1 by WESTERN 38 S & W. 5 others all lead blunt r/n blts; by WESTERN & 3 variations by KYNOCH (38 - 200 h/s) & D . C. Co. 38 S & W
307	2 x .440 Rev' ctges. 1st: Long c/f, lge lead blunt ptd blt, 1 lge cannellure, c/p & h/s: . ELEY . LONDON . .440 2nd: .440 short rev' c/f, c/p & h/s: . KYNOCH . 440. These ctges come along rarely, g/c for age
308	2 x .44 S & W Russian. 1st: Wood flat nose sabot, lge domed c/p & h/s: U . M . C .44 S & W . R 2nd: Dummy blank with brass case, 8 petal crimp, no primer, v week h/s: KYNOCH ?? S & W . R
309	5 x .357 Maximum rev' all g/c. 1st G/m, cannellure at case mth, straight then stepped blt with flat/n, h/s: R-P 357 REM MAX. Next 4 are with g/m blts & lge lead h/p. 2nd: Nickled case, IHMSA h/s. 3rd: 2 more with R - P h/s Last: R - P 357 REM MAX h/s, BUT b/p has been split inwardly, by firing pin or ?, Looks quite genuine & unusual.
310	2 x .38 Special in gc, special purpose. Both ni plated cases & lead blts. 1st: Purple lacquer over blt, 3 cannellures around case, purple head & base of case, h/s: REM - UMC .38 SPL 2nd: Part worn away purple lacquer over blt, 3 cannellures around case, writing on case says: 'H.P. Proof', purple lacquer over base, h/s: R - P 38 SPL.
311	3 x .38 special rev'. 1st: ni plated case, white plastic sabot with centre 'an inwards tunnel' very lightweight, h/s: F C 8 7 2nd: Alloy head & base, black plastic case, short brass washed(?) solid r/n blt, h/s: A M T E C H 3 8 S P 3rd: Alloy head & base, white plastic case, lead blt with flange above case mth & tapering to a lead flat nose., h/s: A M T E C H 3 8 S P All g/c.
312	3 ctges. 2 variations of the .38 Merwin, Hulbert & Co rev', & g/c; weights 206 & 207 grs. 1st: lead blt with lge serrated cannellure above case mth, no h/s 2nd: lead blt, 1 cannellure at case mth, both c/p & no h/s, bevelled edge to rim. Last is .38 - 44 S & W Gallery, seems to be v deep seated wad but no blt(?), minor stains to case, h/s: U . M . C . .38 - 44
313	2 ctges with h/s: W-W SUPER 357 MAGNUM. Vgc. 1st a rnd for a Thompson Contender rifle or single shot pistol, ni plated case & white shot-filled long (1.34") sabot, sealed at nose, shot ctges in this caliber (there are others) are unusual. 2nd: KTW green teflon coated, blunt flat nose penetrator blt. In this case the blt will be brass, coated with green teflon, KTW blts are named after the initials of their inventors & come in many calibers.
314	2 KTW x .38 Spl revolver rnds, each with green teflon coated blunt nose non mag (so brass) blts, vgc. 1st brass case & h/s: HI - PER 38 SPL + P 2nd: Ni plated case & h/s: K T W 38 SPL
315	5 x .38 Spl rev' in gc. 1st 3 are special purpose, G/m mag red nosed blt, cannellure around case, h/s: REM - UMC 38 SPL, 2nd: same blt & h/s, no cannellure, 3rd: v lightweight (142. 7 grs), entire blt "coated" in a red wax like substance with tiny nipple at blt tip (flare?), h/s: SAKO 39 SPECIAL 4th: lead wad-cutter type blt just protruding out of case mth, 1 case cannellure, h/s: WESTERN 38 SPL SR (meaning of SR??) Last: Different type of lead wad cutter just out of case mth, 2 case cannellures, h/s: REM - UMC 38 AMU
316	1 French x .38 Spl in vgc. Designated "Tres Haute Vitesse" (very high speed) with a machined(?) brass non mag blt, with cannellures at & above case mth & blt scalloped to an almost ultra fine pointed 'needle point' tip. Brass case & h/s: .38 SP. P+ THV . SFM Very collectable.
317	4 ctges all gc. 3 x .38 S & W. 2 are wood sabot shot(?), 1 flat nose wood sabot, ni/primer, h/s: REM - UMC 38 S & W . 1 blunt r/n sabot, snapped c/p & h/s: REM - UMC 38 S & W 3rd: Blue & white paper sabot with white t/w, no primer, h/s: KYNOCH .38 S & W . Last: .32 - 44 S & W (Brandt cat' 336), protrudes a fraction from case mth is a lead blt, h/s: W . R . A . CO . 32 . 44 S & W
318	3 x 8 mm auto pistol ctges. 1st: 8 mm Jap Nambu, c/n blt, 3 pin dot crimp, domed b/p, no h/s . 2nd: 8 mm Roth - Steyer, c/n blt, flat ni/p, h/s: * G * F * L * 8 * STEYR * .Last 8 mm Bergman -Simplex, c/n mag blt & h/s: K DWM K 488
319	3 x .35 S & W automatic in g/c. Each c/n non mag blts & each has 1 case cannellure. 1st, flat ni primer with U & h/s: REM - UMC 35 S & W 2nd: Same h/s but U on c/p 3rd: h/s: W . R . A . CO . 35 . S . & W.
320	4 x 8 mm Protector, all brass case & gc. 1st: lge lead 2 cannellures & flat nose blt, c/p & h/s: W . R . A . CO . PROTECTOR 2nd: rounded lead blt, flat c/p & h/s: same 3rd: 2 believed French, rnd 4 petal crimp brass 'nose', flat c/p & no h/s.
321	2 x .38 Long Colt blanks. Both early military with brass cases, cannellures below case mths, which contain a lacquer sealant some 4 mm down. These are unusual in that they bear no resemblance to a .38 Long Colt ctge whatsoever & both are bottled necked (0.290") case mth dia'. H/s are: F A 9 07 & F A 8 07 Ref' Brandt cat' 359
322	2 x .38 Tround in gc. Both have green plastic triangular 'cases' & the letters in the h/s are of an unusual shape. 1st Lead blt sunken & flush with case mth, o/a/l: 1.341", flat ni primer & h/s: D C . 38 2nd: Lead blt protrudes from "case" mth, o/a/l: 1 .671", domed c/p & h/s: D C . 38
323	3 x .38 x 44 S & W (M 1891 pistol) in gc, may need case cleaning, noted for the blt being recessed below or near below the case mth. 1st: Lead blt just out of case mth, o/a/l: 1.516", domed c/p & h/s: U . M . C . .38 - 44 2nd: Lead r/n blt just below case mth, o/a/l: 1.478", c/p & no h/s 3rd: Unfired, no blt or load, blt board dummy, 2 holes to case, domed small c/p, h/s: W . R . A . C o . 38 - 44
324	1 original catalogue on German metric ammunition, G.ROTH. 21 pages brown paper, plus covers, about 31 cm x 14 cm. Rusted staples confirming age, old 'via Air Mail' stamp on front cover. Ex' Lynn Harris collection. All detail in German with many hand written details about ctges or bullets in English. An absolute plethora of German information, v small area of cover labels worm away at bottom r/h corner. Overall in vgc.
325	1 repro' catalogue on German metric ammunition, G.ROTH. 28 pages & covers, about 31 cm x 14 cm. Black tape over stapled spine. Assumed to be ex' Lynn Harris collection. Some of the details replicated from catalogue above, other details not seen before. All detail in German; huge amount of details re' metric cases & bullets. Near new cond'.
326	1 repro' catalogue in as new cond', indicated as June 1906; red on black front - 1906 - Cartridge Machinery made by 'Taylor & Challen Ltd, Engineers, Birmingham England. 40 inside pages, some showing fascinating detail regarding the manufacture of ammunition in the UK. A most interesting glimpse into the manufacture of ammunition well over 100 years ago
327	1 repro' catalogue - "Fred Adolph - Modern Guns". Fred Adolph (of the USA) produced firearms of the most stunning

	quality in existence & so far as is known he never produced one that was identical to another, his motto being "Never the same gun twice". This black & white A4 size 68 page catalogue indicates the quality & epitome of the products of a firearms maker who has ever lived. Shotguns, rifles & handguns by this man's firm were considered by many to be unsurpassable, 5 British calibres are shown in the catalogue (he may have made others) plus a wealth of information. Some pages at the back have a 'top end ripple', otherwise this is in vgc.
328	Information booklet on "The .600 Farquharson Rifles", this introduces the single shot falling-block .600 nitro express rifles (2) that John Saunders, owner of London Guns, in Melbourne Australia had made in the 1980s. The booklet outlines as John puts it 'the Historical Notes' relating to the Farquharson, its background & the making of the first & the second of these two extraordinary rifles. Near new cond'.
329	Winchester (Australia) near new catalogue, shotshell & .22 r/f ammunition, inside is written "1990". Spiral bound, 44 full colour pages of products of the day, vgc
330	Black & white photo -copy of Tisdalls guns, rifles, ammunition & shooting Equipment, catalogue, April 1936 - No 90. 50 or so pages of detail long gone in the past; makes interesting reading (& wishing!), fc/ - g/c
331	.50 - 95 Winchester M 1876. Lead blt, case mth crimp, flat nose, cu tube. Slight shoulder, flat c/p, h/s: ELEY . 50 . WINCHESTER vgc.
332	.50 - 95 Winchester M 1876. Short lead blt, case mth crimp, lge flat nose & cu tube. Slight shoulder, flat c/p, h/s: ELEY . 50 . 95 . 300 The heaviest blt loading, Ref' Hoyem 4 p77, vgc.
333	.50 / 70 Farrington primed(?) rifle (musket?) ctge (appears to be) by the US Cartridge Company(?). Lead f/n blt (0.516") with light cast mk over blt, presumed original. C/l: 1.693". Rounded base with no h/s & small flat c/p. Some case stains otherwise gc.
334	.45 - 90 Winchester, sister ctge to the .45 - 85 & .45 - 82; same but different loadings, small ding to case & 1 mk of no consequence, case mth crimp, lead flat nose blt with (original?) cast mk. H/s: W . R . A . CO . .45 - 90 W.C.F.
335	.40 / 45 x 2.1" case Remington. P/p lead flat nose blt heavily case mth crimped, 'birthmark stain' around most of case mth (does not detract at all), no dings or corrosion at all, flat c/p, flat base with edge of rim bevelled. Hoyem V4 page 35 states "Remington head with bevelled rim & small copper primer, no h/s. This is a little-known ctge about which no other information has been found other than the identity supplied by the original owner many years ago, so the source is not available. All seems as detailed other than the c/p is not that small at about 0.23'. In other words it would appear as though this ctge could be rare to very rare. One for the very advanced American collector.
336	.40 / 70 Ballard (indicated as v similar to .40 / 63 so?), Lead blt (no p/p) with flat nose & cannellure just above case mth, smallest domed b/p, no h/s & ring around base near edge of rim. Case once polished & lacquered, now has many spots which do not seem to be corrosion related. Clean with acetone perhaps? Ref: Datig 1, p153, overall g/c.
337	3 items of .40 / 50 - 265 Sharps necked, all brass case & gc. 1st: weight: 539.3 grs, long & lge p/p flat nose lead blt, friction seated, lge domed b/p , no h/s & raised circle inside of rim. 2nd: weight 469.5 grs, Lead p/p, r/n friction seated solid blt, exact same base as 1st. 3rd: m/t (flat cu) primed case, h/s: C C C 40 / 50 B or 8(?) N which means?.
338	3 Rev' ctges. 1st: .41 Long Colt double action, blunt lead r/n blt with 2 lube grooves, domed c/p, h/s: PETERS . 41 L . D . A . 2nd seems same, but longer blt, 1 v lge cannellure in lead blunt (almost flat nose) above case mth, long neck crack, flat c/p & no h/s. 3rd: on case "home made", stepped lge lead flat nose blt, 4 pin dot crimp, h/s: W - W SUPER 30 - 30 WIN so made from a 30/30 case. Last: .41 short Colt double action (long case), lead v blunt nose blt, 2 cannellures, small domed c/p, h/s: PETERS .41 S. D. A.
339	2 of .41 Short Colt, D. A. short case. 1st: Lead r/n blt with 1 cannellure above case mth, flat c/p & h/s: REM - UMC 41 SHORT 2nd: lead sold r/n with lge cannellure above case mth, domed c/p & h/s: U . M . C . 41 SHORT .
340	2 x .44 Evans, Long / New Model. (aka - 44-40 Straight or .44 - 40 - 300) . 1st: Lead blt coned to a flat nose, case mth crimp, small domed c/p & h/s: W . R . A . Co . 44 EV . N . M . 2nd: on case says ." Farrington primed", Lge lead blt with cannellure above case mth, small flat nose, case mth crimp, flat c/p, rounded edge to rim & no h/s, both g/c.
341	2 ctges in gc, 1st: 25 - 20 single shot, lead flat nose blt, minor corrosion mks to case, domed c/p, h/s: PETERS .25 - 20 2nd: 22 - 15 - 60 Stevens, flat nose lead blt, b/p & h/s: U . M . C . 22 - 15 - 60 & 22-15-60.
342	2 ctges in gc. 1st: .32 Ballard extra long, Lead blunt r/n blt with 2 cannellures, minor stains to case, c/p & h/s: W. R. A. Co . 32 EX . L . 2nd: R/f obsolete French round seen from time to time in NZ, but can not locate details. Lead lge cannellured blt of about 5.7 mm, c/l: 29 mm, o/a/l: 36.81 mm, deep brown cu case & brass base cup with h/s: GG intertwined & back to back. vgc.
343	.30 / 40 Krag, (1st US small-bore military ctge) OR .30 PURDEY. C/n non mag blt with v lge rn lead nose, friction seated, small depression in v small area of lead & c/n, case needs a clean, no corrosion, no h/s, bevelled edge to rim, lge domed c/p (0.242") which gives impression that this is British, not American?
344	2 ctges vgc. 1st: .30 / 40 Krag with paper mache type blunt r/n "blt", ni primer (0.20") h/s: W . R . A . Co . . 30 ARMY 2nd: 8 x 50 R Austrian Mannlicher with blue wood blunt ptd blt, heavily case mth crimped. Domed b/p, rounded edge to rim & h/s: \ * / P \ * / 1923
345	.40 / 70 Ballard (indicated as v similar to .40 / 63), Lead p/p (v clean) blt, with flat nose. Domed b/p, h/s: W . R . A . Co . 40 - 70 BAL As new cond'.
346	.40 / 70 Sharps 2.5" straight in vgc. Lge p/p lead friction seated blt with flat nose. Birthmark type stain below part of case mth & little on case, does not detract at all, no corrosion at all, domed b/p & h/s: W . R . A . Co . 40 - 70 S . S .
347	2 Maynard two-piece brass cases, not loaded, gc. 1st: .40 - 40 x 1.86" M 1873, domed b/p & usual 2 screw slots either side of primer. 2nd: .40 / 40 x 1.746" M 1859 - 65 percussion , with soldered on rim of 0.755" dia x 0.038" thick with tiny central flash hole. Case age related staining, no corrosion at all.
348	. 577 Snider M 53 Mk 9 SHOT loading in vgc. Off white shot sabot with pressed down twisted 'top not', fully intact rising approx 0.415" from case mth. Light brown paper over brass foil case, single red band around case, 2 piece brass base, brass cupped c/p & iron base.
349	9 x 63 R Mauser, with c/n mag lge h/p, case mth crimped blt, significant birthmark type staining to blt & case, no corrosion. Domed c/p & h/s: . H . UTENDOERFFER . NURNBERG. Dixon p116 states: " <i>Counterpart of the 9 x 63 (rimless), only known specimens have this h/s, discontinued by 1934. A fairly rare calibre.</i> "

350	.300 Whisper, as new cond'. G/m blt with ptd green plastic tip, chromed or ni' plated case, flat ni primer, h/s: F C 223 REM O/a/l: 2.535" An interesting ctge designed to shoot relatively heavy blts at subsonic speed
351	1 red paper wrapped, string tied packet of 10 rnds of what is believed to be the 8mm Kropatscheck wood bullet blank. Spanish print indicates "Fabrica Da Polvora etc de 8 mm m / 89 1902". Obviously never opened, ctge case edges worn through paper in a number of places, overall in gc to vgc.
352	1 m/t black print on red paper wrapped, 2 piece lift top box for Hoffman's .300 Magnum, Blt: 180 gr soft nose, by Hoffman Arms Company Ohio USA. Wrapped in shrink wrap so not disturbed. A bit of wear & tear, so fc+ to gc.
353	2 plastic cased 12/14 g W W Greener, Martini single shot riot & or prison guard shotshells. Produced in brass not long after WW1. Used by Egyptian Officers amongst many other countries. These 1940s onwards with the usual deep 'groove' around the central located ni' primer; 1st has no 'top wad', gold/brown case with 3 stress fractures at case mth & solid lead hollow 'apple corer' type 'bullet, h/s: V GREENER F POLICE GUN with 7 in grove below Greener 2nd: Deep brown case, clear plastic 'top wad', looks to be loaded with BB shot or larger, h/s same as first, but 15 in groove below the word Greener. g/c.
354	.32 flat teat fire cartridge in vgc, cu case with cannellure well below belled outward case mth, deep seated lead blt encased in bees wax, no h/s. Few collectors & others it seems are aware that the calibre .32 is not the diameter of the bullet, but the approximate diameter of the outside of the case below the mouth (about 0.327").
355	.32 round teat fire cartridge in vgc. All detail as for the above Lot.
356	10.4 x 38 R / .41 Vetterli M69/81 Swiss rimfire ctge in gc. Lge lead r/n blt with 2 lube grooves, brass case (a few mks, no corrosion). H/s: L.B. (probably Leon Beaux of Italy).
357	.31 Colt skin ctge (believed), pointed lead blt, with outer paper 'case', black cloth tear-tab, faded orange(?) round sticker on base stating 'ELEY LONDON', o/a/l: 1.063". In vgc for age.
358	.40 Eley's Needle Gun ctge in vgc. Lead blunt r/n blt with 1 cannellure at (paper) case mth. Light brown paper covered with straight seam, blue round label on base stating "ELEY'S Needle Gun Cartridge". O/a/l: 1.320".
359	Believed to be a .56 Colt revolving rifle skin ctge. Lge lead blt (0.576" - 0.580") in gc (the true dia' of the blt for the .56 Colt ctge is about 0.583"), outer paper wrap has been removed, showing is the inner paper (bit grubby due to age) covering the skin with a black cloth tear tab. Base of paper cover shows orange circular sticker with black print: ELEY, LONDON . Very little detail regarding British skin ctges for US muskets & rifles exists. This is decidedly rare.
360	.30 Long r/f, Lead frosted blt, serrated cannellure, cu case & h/s: H in slight round depression, vgc.
361	.41 r/f Derringer. Ptd lead blt, slight step in blt above case mth, cu case & h/s: U in slight lge circular depression. Vgc.
362	.42 r/f Forehand & Wadsworth No 64. Lge lead slight frosted blt with slight step about 0.250" above case mth, cu case & h/s U
363	.44 Henry r/f, pointed lead blt with lge cannellure just above case mth. Cu case & no h/s; base has v slight depression with 2 fine circular swirls or rings, beautiful patina, 1 micro size ding, vgc.
364	.44 Henry flat - Short case r/f. Lge lead, some frosting, flat nose blt, 2 lge cannellures above case mth, cu case & h/s: Raised H in circle, further light 'ring' around case inside of rim & 1 'nick' towards rim. vgc
365	.56 - 52 Spencer r/f. Lge lead blunt nose blt, 2 cannellures above case mth. Shoulder about 1/2 way down cu case, Old stain (label mk?) on 1 part of case, does not detract at all. No h/s, slight raised dimple in centre of base then slight circular depression all around; in vgc.
366	.303 ctge with h/s of CAC 7 54 g/m lead nose blt, blemish to 1 side of brass case. This extreme rarity, sought by collectors world wide will be one of the highlights of any advanced collection. As a gesture of congratulations on winning this prestigious ctge the NZCCC President is pleased to gift to the successful bidder a NZCCC memento from the NZCCC Napier Hawkes Bay 2006 AGM. Namely an unopened, totally original bottle of Hawke's Bay Merlot-Cabernet 2002 wine. A NZCCC collectors edition, fully labelled bottle with details on the label of the 2006 NZCCC AGM , vgc with the contents not sampled.
367	Pkt (20) 30-06 Ball. American Military style packet but made by Kynoch Factories of Imperial Chemical Industries. Has ICI and Kynoch logos.
368	Pkt (20) 30-06 SPRINGFIELD. Marked PETERS HIGH VELOCITY. Attractive blue and yellow packet with white and red markings. Very tidy.
